

# DIAMOND WIRE SPRING COMPANY

## Precision Design and Manufacturing

CUSTOM AND STOCK SPRINGS  
*FOR INDUSTRY*

*Since 1939*

# Combining Experience, Engineering and Technology

With over 75 years of experience, Diamond Wire Spring Company has the knowledge and expertise to satisfy the most exacting requirements and exceed your expectations. We are a leading designer and manufacturer of all types of custom and stock coil springs—compression, extension, torsion, die springs—and wire forms.

As a third generation family-owned business, we take pride in our ability to meet individual customer demands through uncompromising commitment to quality and on time delivery at competitive prices.

## *Four Facilities Strategically Located to Better Serve You*

Our ISO certified and compliant family of plants are domestically located to offer you convenient and fast service. These plants include three manufacturing facilities and one catalog warehouse all located in the United States. All plants have the most modern equipment available to produce springs and wire forms for every conceivable industry in countless varieties of shapes from straight lengths to the most intricate custom assemblies.

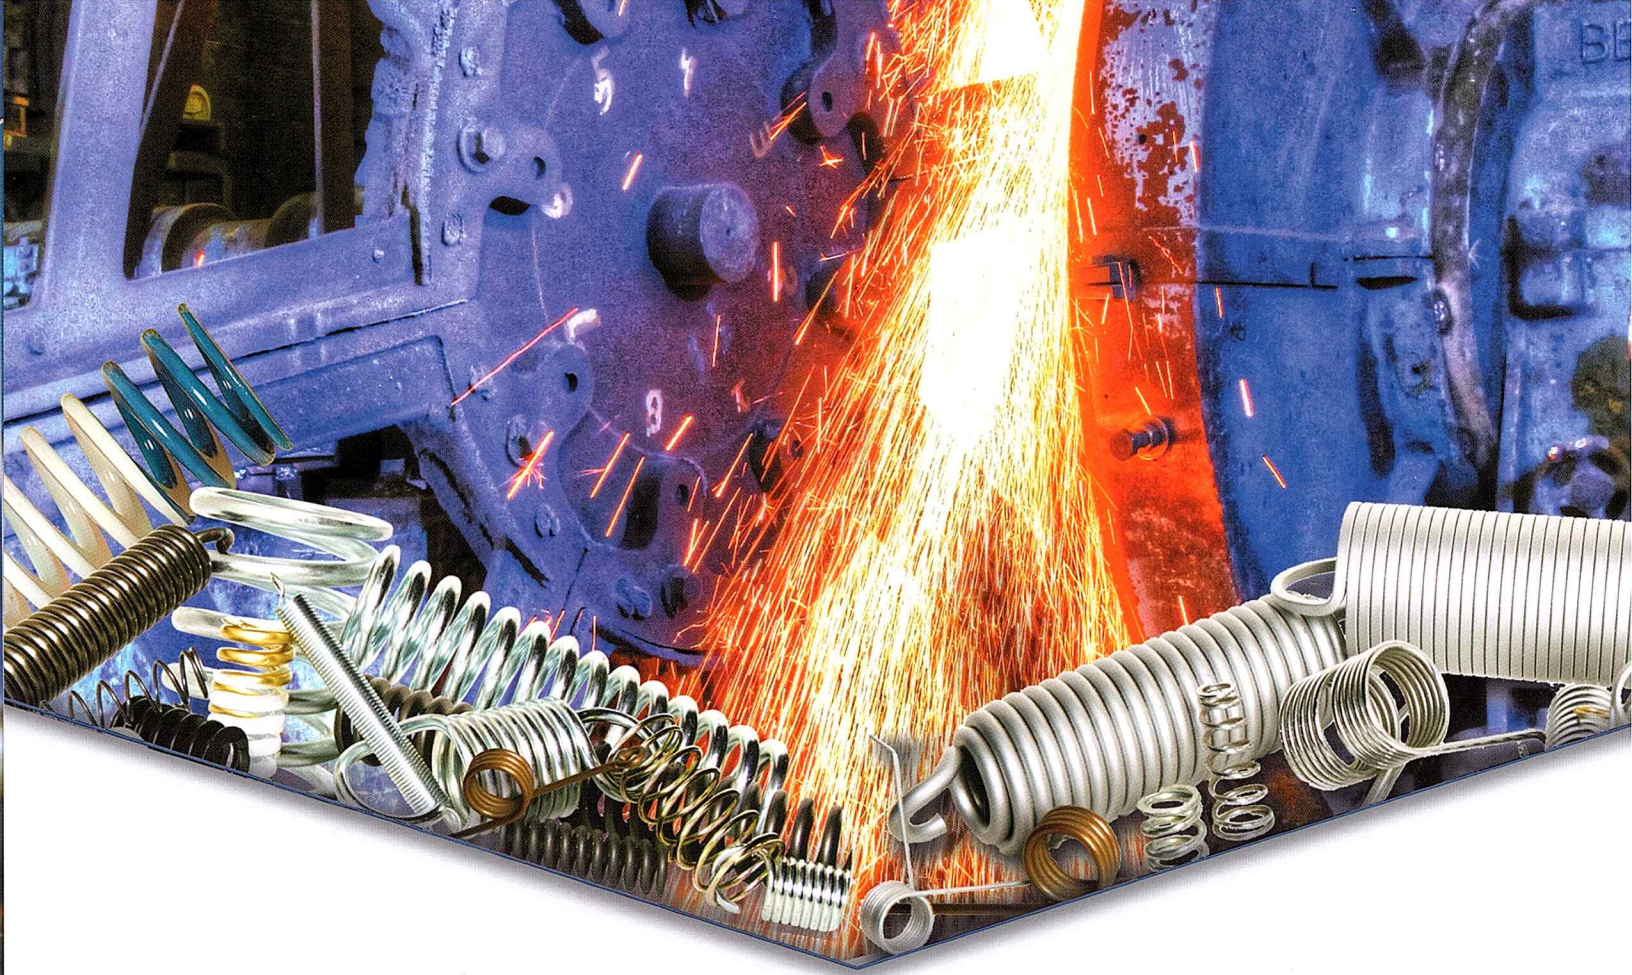

## *Short and Long Runs—Delivered Fast*

A significant portion of our orders are for short runs with quick lead times. Custom design quotes are typically returned within one business day, then manufactured and delivered upon your desired deadline. From our inventory of over 11,000 different stock springs combined with our custom manufacturing capabilities, we are ready to meet all your precision spring needs. Stock springs ordered from our catalog can be shipped within 24 hours of order placement, if not the same day.

## *Outstanding Quality at Competitive Pricing*

Consisting of three manufacturing locations and our catalog division, Diamond Wire Spring has the size and capacity to handle all your custom spring needs. We provide you with quick responses to quotes, through to fast production times and delivery. Understanding the need for continued development in the manufacturing process and meeting this need by investing in the most modern equipment available, we produce springs and wire forms for every specification as economically as possible.

## Springs for Every Industrial Application

We are proud of our reputation for honesty and integrity in conducting business. In addition to our competitive pricing, outstanding quality and fast delivery service, we offer you over 75 years of experience in the marketplace. We have built our company on quality and assured customer satisfaction.

### Custom Springs
